ABSTRACT

These materials constitute part of an active, interdisciplinary, place-based curriculum that introduces fourth and fifth grade students to the concept of landscape and heightens awareness of the relationship between landscape and people. This photo packet contains nine color photos of the Boston-area landscapes that students use with "Picture This!," a cooperative learning activity to heighten visual acuity and home investigative skills. Instruction for Use

Using Your Photo Prints

It is not necessary to store the photo prints in a binder.

Using this Curriculum

Landscape Explorers is an active, interdisciplinary, place-based curriculum that introduces fourth and fifth grade students to the concept of landscape and heightens awareness of the relationship between landscape and people.

Each class participating in *Landscape Explorers* needs:

- A Teacher's Guide with background information and lesson plans to help teachers facilitate student learning activities.
- A Student Field Journal for each student. The Student Field Journal includes background information and activities that spark imagination, creativity, and self-confidence as students develop new skills and understanding.
- A Photopacket with nine 8 1/2" x 11" color photos of Boston-area landscapes that students use with "Picture This!," a cooperative learning activity to heighten visual acuity and hone investigative skills.

For More Information

For more information on this curriculum or other programs at Frederick Law Olmsted National Historic Site, please contact the site's Education Specialist at (617) 566-1689, x 204.
